 CISCO The bridge to possible

# An Inclusive Future for All in CyberSecurity

# An Introduction to Cisco Networking Academy

# What is Cisco Networking Academy?

Cisco Networking Academy is a **global CyberSecurity and IT education program** that provides best-in-class tools and courses ranging from CyberSecurity, IoT, Programming, and more

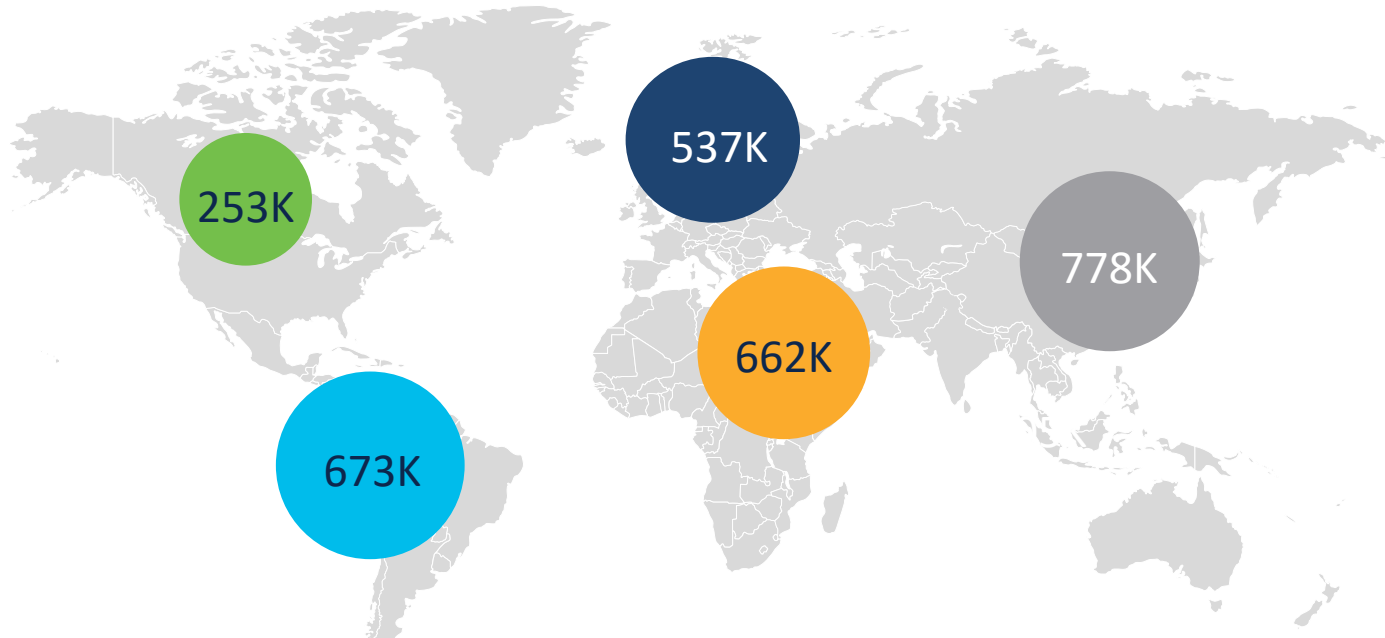

Learners can leverage content via instructor-led courses or via Skills for All, an online self-paced learning platform

Our core mission is to enable individual from any background and anywhere in the world to upskill and reskill themselves and to participate in the digital economy

# Networking Academy around the world

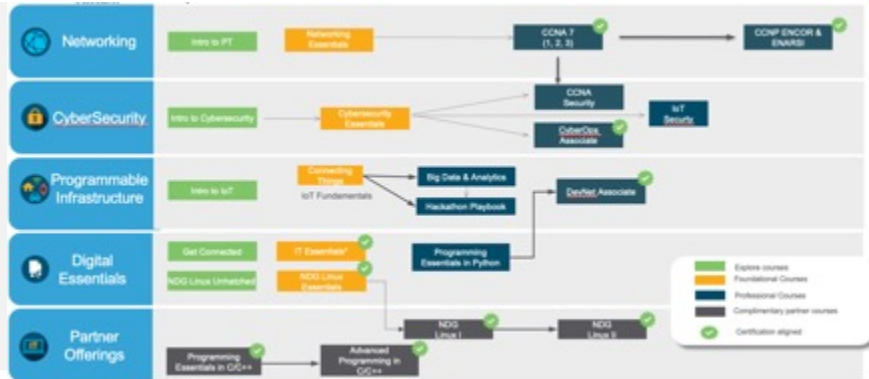

- ✓ 12,000 Academies
- ✓ 180 Countries
- ✓ 15.1M Students served
- ✓ 29,000 Instructors

3.09M currently enrolled globally

Preparing people for IT careers since 1997

# Our core philosophy: Enabling Anytime, Anywhere Learning

Our platform and courses are designed to empower any learner anywhere to take their destiny into their own hands

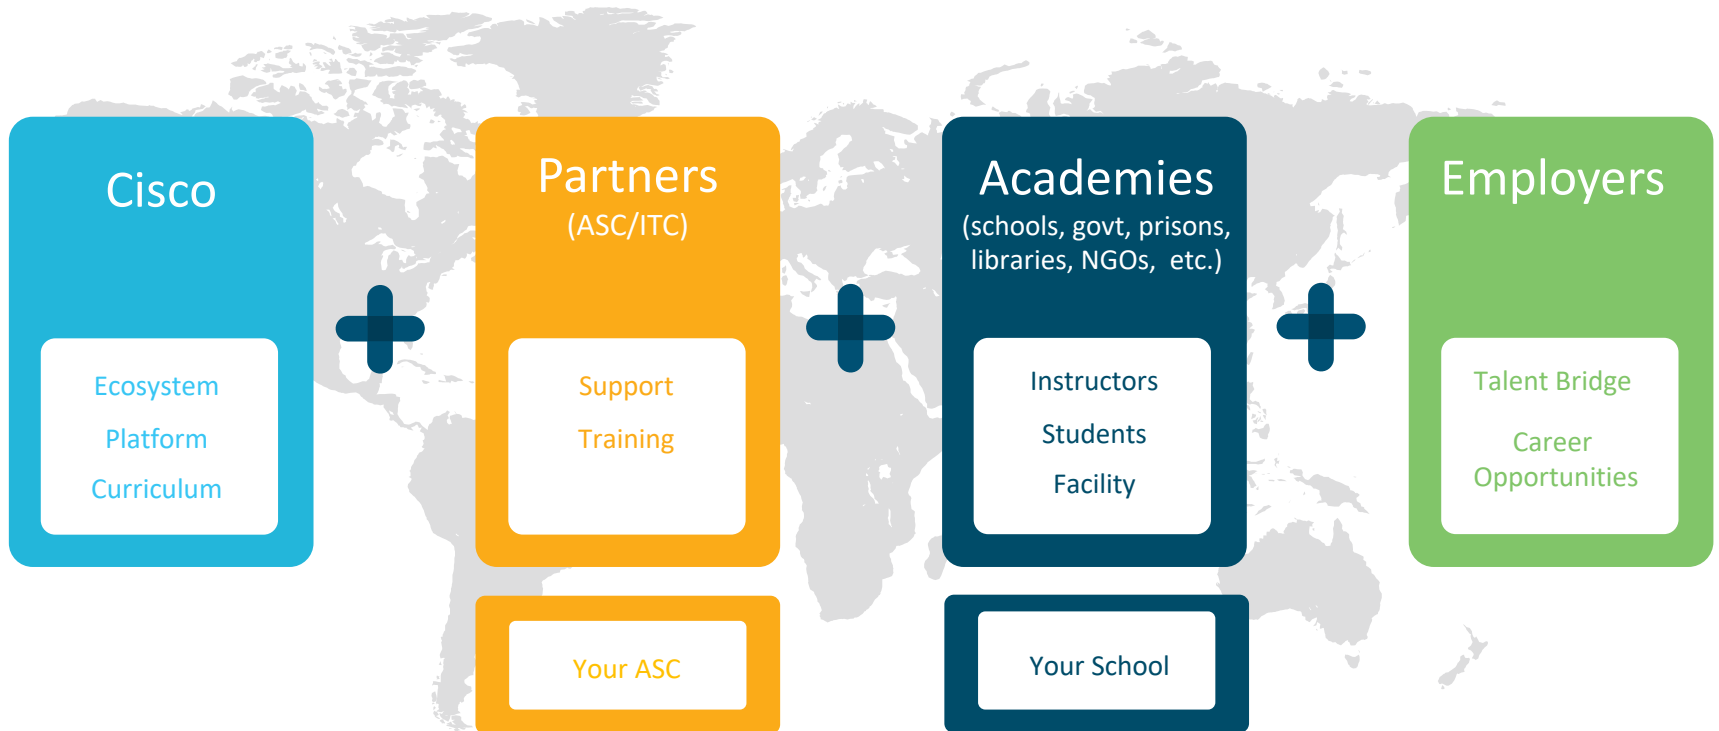

Our approach is to provide our learners with a range of choices and learning paths to shape their own futures

# What sets us apart?

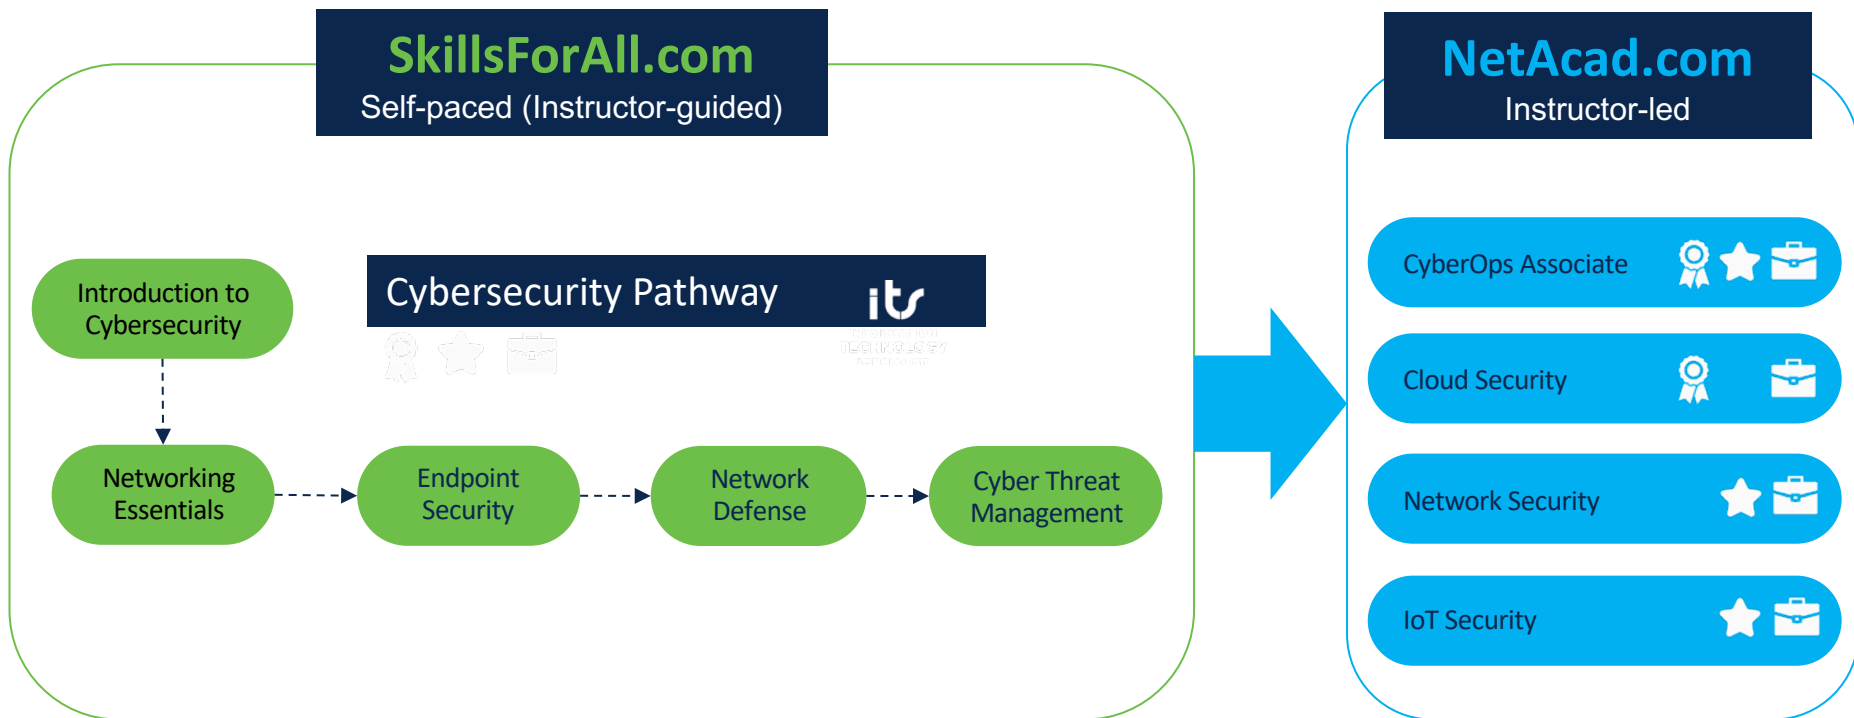

- 1** 100% agnostic content – we do not teach Cisco, we teach skills
- 2** Accessibility - from basic skills to professional certification
- 3** Content is entirely free of charge and mobile friendly
- 4** Courses designed to align with skills demanded by the market
- 5** Industry recognized professional certifications
- 6** Blend of practical and theoretical, in-person and virtual learning
